

Information About CheckWriter™ Software:

Dear Business Owner,

Thank you for asking about CheckWriter™ check drafting software.

CheckWriter™ is stand-alone software that works with any Windows computer. It allows you to accept a check as payment by phone, fax, at your website, or for monthly billing.

Using a laser or ink jet printer, the software will create a draft of the check for deposit into any U.S. bank the same day, guaranteed.

There are no fees associated with using CheckWriter™. These drafts do not require a signature. They will be treated by your bank much like a check that you receive over the counter, or through the mail. Simply endorse and enclose these items with your regular deposit.

For first time customers who purchase the single user version of CheckWriter™ software, we include your first 50 blank checks for free.

Two Networkable Versions are also available to support multiple users on a local area network (LAN). This is ideal for call centers, collection agencies, banks, credit unions, mortgage industry, accounts receivable, medical billing and more.

Should you have any questions or concerns, do not hesitate to contact our sales office directly. We look forward to hearing from you.

Sincerely,

The CheckWriter Staff
<http://checkwriter.net>

**Guaranteed:
CheckWriter™ Will Work
For You.**

Guarantee

CheckWriter™ check drafting software comes with a 30 Day Money Back Guarantee. If you are not completely satisfied we will refund you your purchase price, guaranteed. See website for complete terms and conditions.

Support

Technical support is available by phone free for the first 30 days. Technical support is always available through email for FREE.

Internet Payment Option

WebDebit™ Payment Form for CheckWriter™ allows payment to be accepted via Internet payment form. The WebDebit™ order form will import your orders into CheckWriter™ using ASCII text format.

WebDebit™ forms are available for use on your own website. A free form is provided with your CheckWriter™ software. WebDebit™ forms require you to configure your own submit button. You must have access to a secure server to make this form secure.

We provide basic self-serve order forms with secure hosting for a low monthly fee. These forms are available at webdebit.com.
